| Account herewith no A.314      |                    |                    |                            |                           |  |

COMMENTS:- These E.coli counts show that there was little change in the Creek after the festival. The count in sample (2) is raised a little, but counts less than 400 E.coli are suitable for swimming.

Distribution:-

The Secretary, }  
Shire of Bulla }  
Health Inspector, Bulla.  
File

C. Marybank 9/2/72  
Bacteriologist

  
Superintendent, Engineering Laboratories
